NAGARAJ S CHITAPUR

+91-6362590243 | nagarajchittapur18@gmail.com | linkedin.com/in/nagaraj-chitapur | github.com/nagarajchittapur18-dev

Education

Master of Computer Applications (MCA) 2025 – Present
Presidency University, Bangalore *CGPA: 8.75*

Bachelor of Computer Applications (BCA) 2022 – 2025
ARJ BCA College, Ilkal *CGPA: 8.73*

Technical Skills

Languages	Python, Java, PHP, SQL
Web	HTML5, CSS3, JavaScript, REST API
Frameworks	Django, Flask
AI/ML	Machine Learning, Deep Learning, Generative AI, TensorFlow, Keras, Scikit-learn
NLP	Natural Language Processing, Word2Vec, BiLSTM, Attention Mechanism
Computer Vision	OpenCV, DeepFace
Databases	MySQL, SQLite, MongoDB
Tools	Git, GitHub, VS Code

Projects

Smart AgroAssist
Django, Python, Machine Learning, Deep Learning, HTML, CSS, JavaScript
- Developed an AI-powered agriculture platform for crop recommendation, fertilizer guidance, and plant disease detection.
- Implemented machine learning and deep learning models for automated crop prediction and plant disease analysis.
- Integrated an AI chatbot, weather information, and personalized farming assistance through a web-based dashboard.

AI Mental Stress Detection
Python, Flask, TensorFlow, Keras, DeepFace, OpenCV, SQLite
- Developed an ANN-based AI system using TensorFlow/Keras to predict stress levels from behavioral data.
- Integrated DeepFace and OpenCV for facial emotion detection and personalized wellness recommendations.
- Built a Flask application with authentication, analytics, prediction history, and stress-trend visualization.

Twitter Hate Speech Detector
Python, Flask, TensorFlow, NLP, Word2Vec, MySQL
- Developed an NLP classifier using BiLSTM with Attention to classify tweets as hate speech, offensive, or neutral.
- Implemented text preprocessing and Word2Vec embeddings for feature extraction and deep-learning classification.
- Built a Flask application with prediction history, analytics dashboard, REST API, and responsive UI.

Fake Offer Letter Phishing Inspector
Python, Flask, NLP, Machine Learning, HTML, CSS
- Developed an NLP-based phishing analysis system to identify potentially fraudulent job and offer letters using suspicious-pattern detection.
- Implemented risk scoring and phishing indicators to highlight potential fraud risks without claiming guaranteed detection.
- Built a Flask web interface for uploading, analyzing, and presenting clear offer-letter risk results.

Certifications

IBM SkillsBuild – AI Fundamentals | Cisco Networking Academy – Networking Course

Leadership & Activities

Coordinated a college IT festival and organized coding competitions; led the coding team “Code Veda.”

Soft Skills

Communication | Leadership | Teamwork | Adaptability | Problem Solving
